  - 3 Login / Sign-In Page
  - 4 How Many Detection Systems?
  - 5 Notifications and Messages
  - 6 Conclusion

# 1. Introduction

## Welcome to the Fire Detection Application

---

Content:

- Text:
  - Welcome to our fire detection application.
  - Purpose: Monitor, alert, and respond quickly in case of fire detection.
  - The application guides you through four simple steps to ensure your safety.

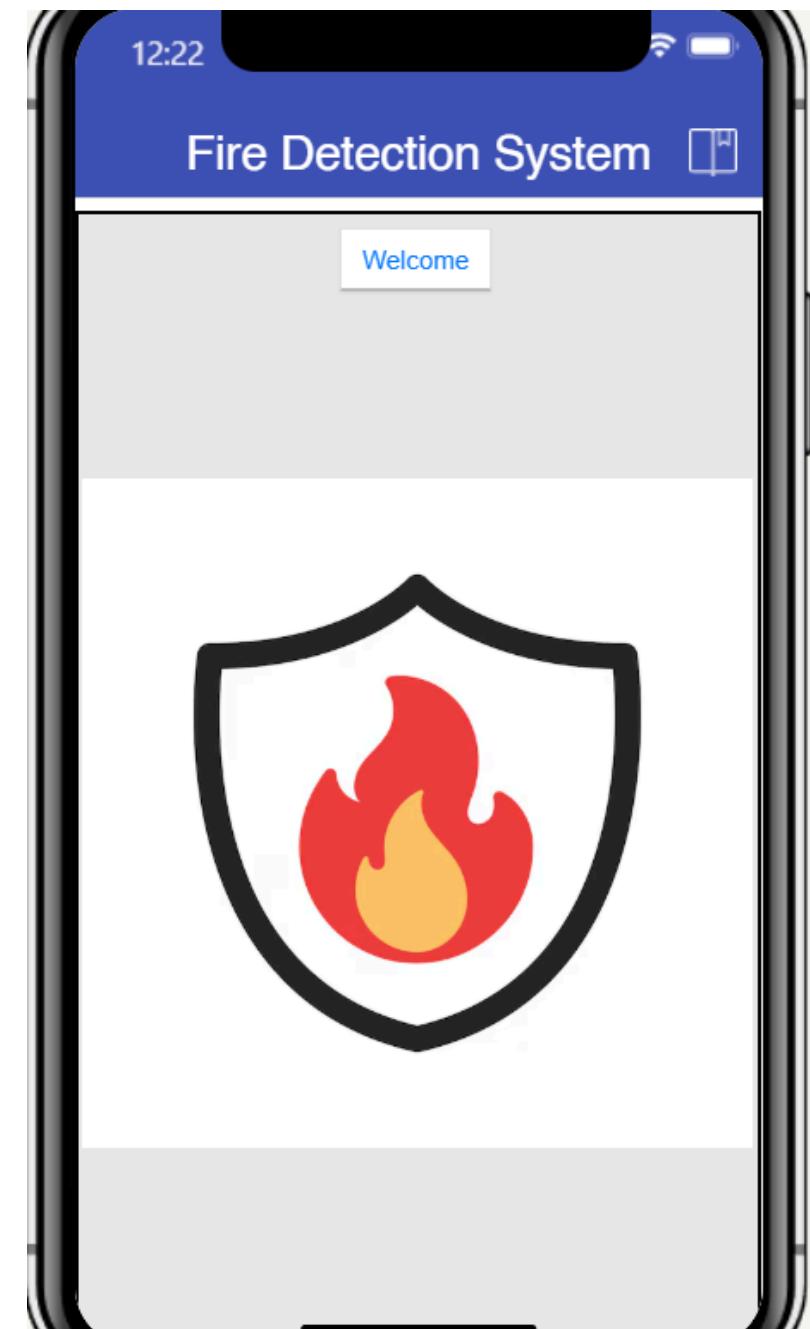

## 2. Welcome Page

---

Content:

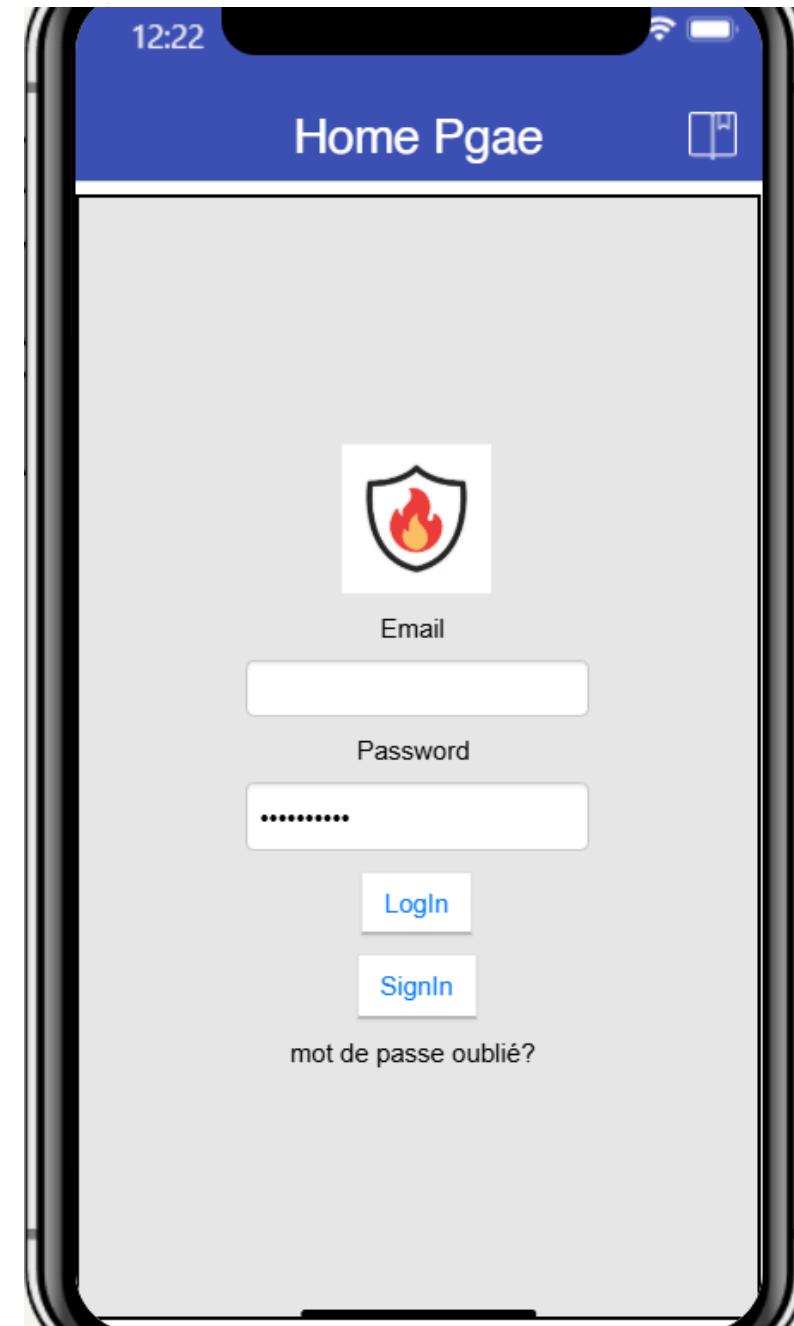

- Objective: Greet the user in the application.
- Instructions:
  - Tap the "Welcome" button to proceed to the login page.

### 3. Login / Sign-In Page

#### Content:

- Objective: Authenticate the user.
- Instructions:
  - Fill in the "Email" and "Password" fields.
  - Tap "Login" to access your account.
  - Use "Sign Up" if you are a new user.
  - Option: "Mot de passe oublié" to reset your credentials.

## 4. How Many Detection Systems?

Content:

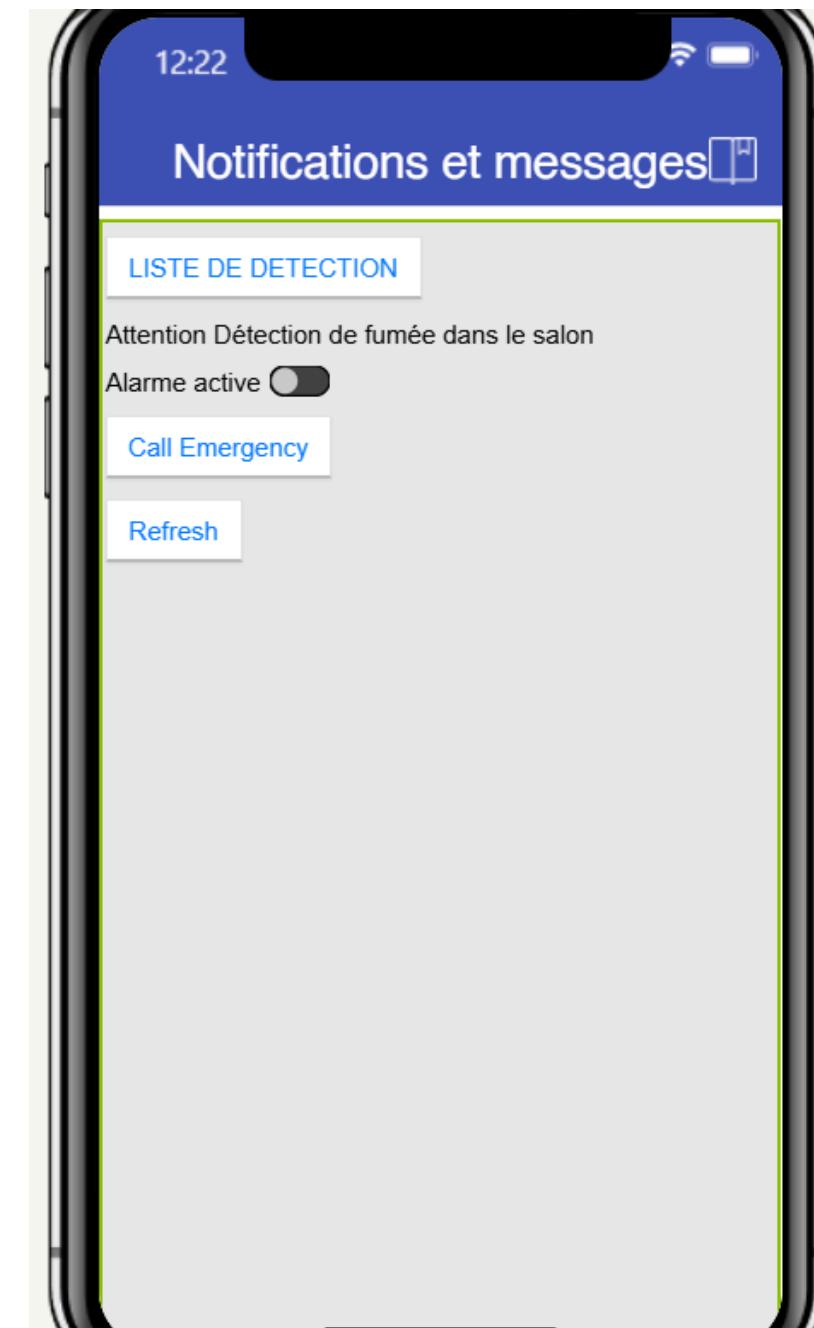

- Objective: Add or select your detection systems.
- Instructions:
  - Indicate how many fire detection systems you own.
  - Tap "Continue" to save and move to the next step.

# 5. Notifications and Messages

Content:

- Objective: Display alerts and contact emergency services.
- Instructions:
  - Check real-time alerts (e.g., "Smoke detected in the living room").
  - Tap "Call Emergency" to quickly contact firefighters or a plumber.
  - Use the "Refresh" button to update alerts.

## 6. Conclusion

---

- Content:
- Text:
- Congratulations! You now know how to use our fire detection application.
- The application is designed to be simple and efficient to ensure your safety.
- If you have any questions or suggestions, feel free to contact us.
